

Module Overview

The **Ironbark Creditors** module is part of the Ironbark Financial suite. Ironbark Creditors allows you to maintain total control over your creditors' invoices and payments, ensuring maximum advantage of settlement discounts with detailed aged reports available displaying payment commitments.

This module works in full integration with the other relevant Ironbark modules such as Purchase Orders, General Ledger, and Job Costing.

Industries

- Fresh Produce
- Premium Funding
- Fuel Distribution
- Project Management
- Timber
- Manufacturing
- Healthcare
- Building & Construction
- Wholesale Distribution

Main Features

- Minimum data entry
- Consistent user interface
- Open item and balance forward
- Auto settlement discount facilities
- Foreign currency conversion
- User defined accounting periods
- Automatic bank reconciliation (via modem)
- Easy, flexible management of GST components

- Interface with General Ledger, Purchase Orders and Job Costing modules
- Creditor code of up to 8 digit alpha numeric characters
- Online enquiry of creditor balances and outstanding transactions
- Flexible payment selection, including partial payment
- Payment due date automatically calculated
- Settlement discount automatically calculated
- Compulsory lists prior to post and update of ledgers
- Validation of General Ledger account codes
- Connection to bank to receive submitted cheques and payment file. Automatic reconciliation with full reporting and control
- Automatic production of remittance advices with the option to produce either cheques or credit transfers with each remittance advice
- Ability to handle foreign currency conversion on invoice entry. Remittances are produced in foreign currency and a foreign currency analysis report is available to show unrealised profit/loss on exchange
- Automatic calculations of profit or loss on exchange rate fluctuation when the invoice is paid and raising of the General Ledger journal entry
- Full GST calculations and reports. Prices can be entered as before tax or after tax. Either way, the system will automatically determine the GST amount
- Archive system for enquiry of paid transactions
- Date sensitive enquiries and reports, therefore forward postings can be made
- Default General Ledger account codes assigned to individual Creditors for fast data entry. Can be overridden
- Creditors can be selected for payment directly from the enquiry screen
- User defined accounting periods

Module Overview

- Full Credit Request System
- Alpha search facilities on enquiry and data entry
- 'Gossip' feature records notes on suppliers
- 'Bill to' codes allow branch invoices to be billed to head office
- 'Hold payments' feature
- Fax or email remittance advice from within Ironbark Software
- Fast payment by EFT
- Drill down from the enquiry screen to see General Ledger allocations

Reporting

- A Cash Requirements report shows invoices due for payment up to a certain date. The invoices cleared for payment are then flagged, and the remittances and cheques are produced.
- A cheque listing report details all cheques paid (and credit transfers sent to banks) and posts to General Ledger
- A reconciliation report lists all transactions by selected date range and type of transaction
- Creditors listing – selected by creditor type
- Aged Trial Balance
- Creditor Labels
- Cash Requirements Report
- GST & BAS Reports
- Payment Selection List
- Remittance Advices
- Cheque Register
